

B&NES Strategic Active Travel Network Review

Experimental network review | 163 connections | Compiled 2026-07-21

- Legend

A-road corridor

National Cycle Network

Community connection

Crossing warning
- The map illustrates the Strategic Active Travel Network for Bath and North East Somerset (B&NES). It features a complex web of connections between various towns and villages. Key locations labeled include Keynsham, Bath, Radstock, Midsomer Norton, and numerous smaller settlements like Chew Stoke, Bathampton, and Clutton. The network is color-coded: green lines for community connections, orange lines for A-road corridors, and blue dashed lines for the National Cycle Network. A scale bar in the bottom left corner indicates a distance of 5 km. The map also shows various crossing warnings marked with yellow dots.
